SELECT PROJECTS

Web Game — Bug Catcher | HTML, CSS, JavaScript, C#

- Developed an interactive browser-based game using HTML, CSS, JavaScript, and C#, implementing gameplay mechanics, obstacles, scoring, and increasing difficulty.
- Designed and implemented a responsive, visually engaging interface with dynamic speed progression and real-time score tracking.

Responsive Restaurant Website | HTML, CSS, JavaScript, Google Maps API

- Developed a fully responsive restaurant website using HTML, CSS, and JavaScript, allowing customers to browse menus, place food delivery orders, and make online payments.
- Integrated the Google Maps API to display restaurant locations and provide customers with directions and location information.
- Designed an interactive user experience featuring menu browsing, staff information, ordering functionality, and responsive layouts optimized for different screen sizes.

Oracle Database System | Oracle SQL

- Designed and developed a fully operational relational database system using Oracle SQL, including stakeholder analysis, requirements gathering, business rules, constraints, and use cases.
 - Created ERD diagrams and supporting design documentation to model database structure, relationships, and system requirements.
 - Implemented and tested the database by executing complex SQL queries to retrieve, manipulate, and analyze data, successfully validating system functionality.
-

RELATED WORK EXPERIENCE

IT Technician (Full-Time) Area Assurances, Douala, Cameroon

[(June 2024 – August 2024), (June 2025 – August 2025)]

- Provided technical support to employees by troubleshooting computer, network connectivity, printing, cabling, and hardware issues.
- Assisted with the maintenance of company databases, local applications, and servers, including troubleshooting system failures and performing basic hardware repairs and upgrades.
- Installed and configured computer workstations for new and transferred employees, and participated in IT support missions at customer service branches across Douala.

INTERESTS

Gaming & Esports: Passionate about multiplayer online, sports, simulation, and real-time strategy games, with active participation in gaming-related community events.

Anime & Visual Arts: Passionate about anime, illustration, and visual design, with a strong interest in exploring creative concepts through drawing, character design, and digital art.

Critical Thinking & Problem Solving: Passionate about challenging my mind through puzzles, riddles, logic-based activities, and complex problem-solving challenges that require deep analytical thinking.

OTHER WORK EXPERIENCE

Sales Assistant (Part - Time), Jeans Depot, Quebec City, QC **[May 2026 – August 2026]**

- Provided customer service, assisted with product selection, processed POS transactions, restocked inventory, maintained organized merchandise, and supported daily store operations in a fast-paced retail environment.

Warehouse Associate (Part - Time) The Great Canadian Meat Company, Whitby, ON **[August 2026 - Present]**

- Handled meat and sausage preparation, receiving, packaging, and sorting while following food safety and workplace procedures, maintaining a clean and organized production area, and collaborating with team members in a fast-paced environment.
